

TEMPLATE RISK ASSESSMENT FOR COACHES

This template has been produced for England Touch club, regional and national coaches to be able to conduct their own risk assessment when it comes to planning a Return to Play for specific training sessions. This risk assessment should be regularly reviewed and amended as circumstances change.

Date of assessment: 23/09/2020..... Your name: Mark Dolton.....

Club or league name: ECFB Rugby..... Your role: Head Coach.....

AREA OF POTENTIAL RISK	SPECIFIC RISK	WHO IS IMPACTED	INITIAL RATING (HIGH / MEDIUM / LOW)	MITIGATING ACTIONS	REVISED RISK (HIGH / MEDIUM / LOW)
Transmission between attendees	Someone attending with symptoms		Low	In advance of session brief players on their obligations not to attend if they are exhibiting symptoms, reminder at beginning of session and record kept that all attending have carried out a self assessment. All attendees briefed that if they should develop symptoms through a session they are to immediately inform the covid officer, leave the session and follow governments guidelines. Informing the covid officer if they receive a positive covid test.	Low
	Members not maintaining social distancing		Med	Lay out zones around the pitch to designate where players can leave their kit and brief on their obligations to maintain social distancing. Design drills and exercises which minimise the need for close personal interaction and limit game time to 20 minutes.	Low
	Members sharing equipment		Low	In advance of session brief players that water bottles are not to be shared and members must bring their own sanitisers,	Low

ENGLAND TOUCH RETURN TO PLAY: TEMPLATE RISK ASSESSMENT FOR COACHES

				towels and face masks. Design drills and exercises which don't require the sharing of equipment. No use of bibs.	
	Transmission through ball		Med	Players to sanitise before the session, at 15 minute water breaks and after the session. Covid officer to ensure balls are cleaned before the session, at breaks and after the session.	Low
	Transmission through cones		Low	Only coach to lay out and collect cones.	Low
	Attendees subsequently develops symptoms		Low	Maintain records of attendance and brief all members that they are to inform the covid officer if they subsequently develop symptoms, or have a positive test for covid.	Low
	Social distancing can't be maintained if first aid is required		Low	Limited requirements for first aid requiring close interaction. Ensure first aider is aware of st. John's guidance and has sanitiser for use before and after any first aid, and a facemask. Ensure First Aid kit is kept closed when not required.	Low
Transmission with other members of the public	Possible interaction with members of public at the venue		Low	In advance of session brief players to maintain social distance from other members of the public and layout training session to maximise distance from public.	Low

Areas of potential risk for consideration include: hand washing facilities, availability of individual and club/league sanitiser and disposable towels, cleaning and disinfecting equipment before, during and after activity, safe storage and handling of equipment, minimise sharing of equipment, no sharing of personal items, including: water bottles, towels, food and drinks, no hand shaking, huddles, or touching the face, no close physical contact outside of the game.
